

3rd Annual Southeast Florida Regional Climate Leadership Summit

Monroe County cordially invites you to attend the Third Annual Southeast Florida Regional Climate Leadership Summit on Thursday and Friday, December 8-9, 2011, at the Nelson Government Center in beautiful Key Largo. The Summit is an opportunity for Southeast Florida Regional Climate Compact partners to come together and to engage new partners. The Compact is a collaboration of Monroe, Palm Beach, Broward, and Miami-Dade counties, which initially came together in October 2009 to develop a coordinated climate change strategy for the region.

At the Summit, a first-ever Four County Regional Climate Action Plan will be released. In addition to elected and appointed officials from the four counties, this effort also includes the participation of federal and State agencies; regional transportation planning and water management authorities; and members of the regional Climate Change/Green Task Force representing the four participating counties. This unprecedented collaboration on an issue of such significance has received the recognition of leaders in the climate change field, both nationally and internationally. The event will include guest speakers, business partners, and a panel of local elected officials to discuss the connection of economic viability to climate change resiliency.

The success of this event is credited largely to our sponsors, who lend their names and financial support to the event. By participating in one of the five levels of sponsorship below, your organization will benefit from extended exposure through media campaigns and promotional efforts directed toward the supporters of this years' Climate Summit.
